

**Revised Total Coliform Rule (RTCR) Failure to Report Monitoring Events to the State that are Not Related to *E. coli*-positive Sample Results – Template 3-5**

**IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER**

**Reporting Requirement(s) Not Met for CITY OF GRANITE SHOALS PWS 0270049**

We are required to report the results of monitoring of your drinking water for specific contaminants on a regular basis by **(RTCR)** DEC 2020. Results of regular monitoring are an indicator of whether, or not your drinking water meets health standards. During **(RTCR)** DEC 2020, we did not report the results of monitoring for total coliform. Our system failed to notify the state drinking water program as required by **(RTCR)** DEC 2020. Although public health was not impacted, as our customers, you have a right to know what happened and what we did to correct the situation.

**What should I do?**

There is nothing you need to do at this time. You do not need to boil your water or take other actions.

What is being done? We collected a complete set distribution samples on 01/06/2021 & 01/27/2021 and were no longer in violation.
